SKILLS & PROGRAMS

C++; Java; Linux; Ubuntu; R; Python; Bash; Windows; LabVIEW; MATLAB; Measurement Uncertainty; Strong attention to detail & organizational skills; Public Speaking; Research & Analysis; Solution Implementation; Database, Record & Project Management; Customer Service; Presentation Skills

EXPERIENCE

DOD HBCU/MI SUMMER RESEARCH INTERNSHIP PROGRAM Patuxent River (NAVAIR), MD
Underwater Acoustic Software Engineer Jun. 2025 – Aug. 2025

- Worked alongside the Airborne Anti-Submarine Warfare Signal Processing (AASP) lab.
- Collaborated with engineers to improve software used by the fleet.
- Real-world application of Kubernetes and docker containerization alongside python, java, and bash script.
- Applied version control techniques using git to implement changes requested by operators.
- Quality of life is the primary goal. Ensuring warfighters and operators can complete their tasks without any mishaps is a necessity.

DOD HBCU/MI SUMMER RESEARCH INTERNSHIP PROGRAM Patuxent River (NAVAIR), MD
Journeyman Software Developer/Acoustician Jun. 2024-Aug. 2024

- Interned within the Sonobuoy Signal Processing Lab at NAWCAD for 10 weeks in the DoD HBCU/MI Program.
- Taught the importance of measurement uncertainty and its application in real world experiments.
- Participated in introductory training courses for MATLAB and COMSOL.
- Attended conference in Arlington, VA to present learnings and progress to program participants and government civilians across the country.
- Learned the basics of LabVIEW and used this experience to create a unit conversion tool that was implemented into software used within the lab.

RISE PROGRAM (Real-World Internship in Science & Engineering) Aberdeen Proving Ground, MD
Radio Frequency Communication (RFC) Lab Intern Jul. 11, 2022-Jul. 22, 2022

- Collaborated with engineers within the U.S. Army to support critical facilities related to our desired majors.
- Utilized 3D modeling software to design dipole antennas, demonstrating proficiency in CAD tools and engineering design principles.
- Conducted in-depth research and analysis to optimize antenna performance and efficiency.
- Presented the results of internships to an audience of army staff and family members, effectively communicating complex technical concepts.
- Received a certificate of completion in recognition of outstanding performance during the internship.

EDUCATION

TUSKEGEE UNIVERSITY Tuskegee, AL
Bachelor of Science, Computer Science (General) Expected May 2027
3.74 GPA | Relevant Coursework: C ++ Programming I & II, Assembly Language, Data Structures

EXTRACURRICULARS & AWARDS

- Upsilon Pi Epsilon Honor Society — Feb. 2026-Present
- Tuskegee Dean's List — Dec. 2023-Present
- Association for Computing Machinery Club — Sept. 2023-Present
- Tuskegee University Merit Scholar — Aug. 2023-Present
- Tuskegee University PREFICS Program (Pre-freshman in Computer Science) — Jun. 2023-Jul. 2023
- Havre de Grace High School National Honors Society Member — Sept. 2021-June 2023
- Havre de Grace High School Warrior Pride Marching Band & Symphonic Band — Sept. 2019-June 2023
- Patrick S. Gilmore Band Award Recipient — May 2023
- The Brian Anthony Wilson Memorial Scholarship Recipient — May 2023
- Kappa League Guide Right Program - Baltimore Alumni Chapter — Nov. 2019-Dec. 2022
- RISE Program Certificate of Achievement (USARMY) — July 2022
